

CAPTAIN

with Air Lumbar & Ratcheting Armrests

THE FLEET SEAT OF CHOICE

The **Captain** represents the top-selling seat known for its durability and dependability.

The Captain's standard air lumbar provides a body-conforming range of support versus the mechanical lumbar that competitors offer.

The Captain series gives you solid ergonomic support and comfort based on studies of over 2,000 drivers. Having the right seat with the right fit ensures better comfort and reduced down time from fatigue.

Now available with **Captain Lo** suspension for medium-duty truck applications.
